Summary

Data professional with expertise in Excel, MySQL, and Tableau. Skilled in data cleaning, data visualization, and programming in Python and R.

SKILLS

- Excel
- MySQL
- Tableau
- Data Visualization
- Data Cleaning
- Python
- R (R programming)

EDUCATION

San Francisco State University, San Francisco, CA
Bachelor of Science, Statistics

WORK EXPERIENCE

Correlation One

Remote

Data Analytics with Excel & Python

March 2022 – August 2022

- Participated in a 16-week data analytics program facilitated through real data analytics business cases to solve business and technical issues.
- Collaborated with teammates to conduct explanatory data analysis to identify trends in rider behavior and preferences.
- Built a data pipeline using pivot tables, graphs, and dashboards to depict results using Excel & Tableau

Projects

- Online Car Sales Dashboard (Tableau): Analyzed sales dataset to identify yearly performance of online car sales. Developed an interactive dashboard that provided insights into sales performance based on various factors such as region time, and product categories.
- Bike Share Riders Analysis (R programming): Analyzed bike share riders' dataset using R programming language.
- International Debt Analysis (Python): Conducted developing countries debt analysis on World Bank data using Python programming language.
- Technology Sales SQL Analysis (SQL): Conducted data analysis on technology sales dataset using SQL programming language.
